PROFILE

iOS Developer with hands-on experience delivering impactful, scalable features in the fintech industry. I've helped build mobile apps that enable millions of users to access credit solutions from their phones. Skilled in designing secure and scalable systems for managing credit limits, working closely with design, backend, and compliance teams to ensure seamless, regulation-compliant experiences. Passionate about clean architecture, performance optimization, and creating meaningful user experiences. Eager to learn, collaborate, and build high-quality products.

EMPLOYMENT HISTORY

❖ iOS Engineer, PicPay .... Mar 2022 — Present
Remote

Contributed to the development of the "Cartão Limite Garantido" ("Guaranteed Limit Card") feature in the PicPay iOS app — a solution that gave over 2 million users access to credit within the first month of launch.

Integrated secure backend services to support efficient and reliable transactions and credit management.

Optimized UI components to enhance the experience of managing credit directly through the app.

Collaborated with cross-functional teams — including design, backend, and compliance — to ensure regulatory alignment while maintaining high app performance and scalability.

❖ IOS Engineer, Popcode .... Jul 2021 — Mar 2022

❖ iOS Engineer, Cooper Card Administradora de Cartões Ltda .... Mar 2021 — Jul 2021
Maringá, Paraná, Brazil

EDUCATION
